What accomplishments are you most proud of (work-related or personal life)? **Having come from a generation caught somewhere between "Father Knows Best" and "Hair," I was prepared to be a wife and mother. I never considered another career. How strange life can be. I suddenly found myself single, having to support not only me, but two small children. In 1973 I went to work for a company in the garment industry. After a three-year crash course, I was hired by another company and a year later made a partner. It's been 30 years and I am still there. The company is Jerry Leigh Entertainment Apparel Company. We design, manufacture, sell, and ship to all major chains licensed apparel. I have offices in New York City, Bentonville, AK (home of Wal-Mart), Orlando, FL, Central America, Hong Kong, and the home office in Los Angeles, CA. It has truly been an amazing career. In my wildest dreams I could never imagine that I would enjoy the success that I have with my company. It has allowed me to travel, learn, and meet wonderful smart people. I credit my husband Ed for his support in helping make it all work. He is an actor, now retired, and his more flexible schedule allowed him to play Mom when the kids were young so that I could pursue my career. It takes a TEAM!**
